

**The vision - Creating spaces**

Art See Ocean Gallery is a newly opened artist in residence in the heart of Sweden, run by artists Stefan and Theresa Lekberg. Art See Ocean Gallery is located in the most beautiful nature reserve, where the forest meet the sea. Stefan Lekberg is a abstract painter and since he moved into the old farm six years ago he transformed it into a exclusive gallery.

We spent the past three years in our own creative process and now we are building up studios and living spaces for artist residencies and want to share the beauty of this place with the rest of the world and fellow creators, the public and creative community. Please help us to complete the creation of our dream - **Art See Ocean Gallery!** As Stefan says, "Beauty is the hardest to take in, you have to prepare it its own space," and so we offer you a retreat, a place in nature and solitude.

**The Houses-** Currently, the residence can accommodate two residents, but we plan to expand space to accommodate six.

**The Studios-** We currently have one studio in the big house. Three larger studios in total 100 sq. meters, are currently under construction in the barn, including a kitchenette and facilities. We would like to offer these to artists as soon as possible!

**Artists in residence**

Contributors will have a chance to follow the growth of not only Art See and the facilities, but also be the first to meet the artists from around the world who come to visit.

To celebrate with our Kickstarter backers, we are head starting the secret 'Behind the scenes backers blog'. That will continue all through 2108, with monthly newsletters. Treat yourself to 2018 be a year of inspiration, creation and contemporary art!

We thank you for support of creative spaces and say 'Welcome!' to all of you artists and creators around the world!

*Emily Dumas, upcoming artist in residence!*
